SUMMER FUN RECIPE

KID SLIME

Materials:

1 Cup glue
1/4-1/3 Cup liquid starch
Food coloring (optional)
Glitter (optional)

Other Materials Needed:

Bowl
Spatula
Storage container

Directions:

Pour 1 cup glue into the bowl. If you want more than one color of slime, separate half into another bowl. Use food coloring, a couple drops at a time, to get the color you want then stir well to incorporate food coloring fully.

Once you get the color(s) you want, begin adding the liquid starch, and begin stirring. A ball will start forming almost immediately. Slowly add more liquid starch and continue to stir. Once you see a defined ball forming, remove from bowl and begin kneading in your hands. Pass back and forth between your hands. It will stick to your fingers and hands but the more you play with it, the less it will stick to your hands and fingers. Pull it, twist it, and squeeze it until it forms the perfect slime. Please note: It will start out very wet and begin to form as you play with it. Don't give up on it. If you want to add glitter, now is the time!
